The bids for the new Government 5 B cent loan at New York, on Saturday, as indicated by the deposits at the Sub-treasury, advanced to a large sum, and, probably, run high as to price. The re sult was delayed on Saturday afternoon, as it had been determined to wait the delivery of the Europa's mails. The New York Express, in its latest

edition, says: "Forn O'clock .- The money deposited at the Sub-treasury on account of the loan, up to three o'clock, was about \$150,000, calling for \$15,000, 000 of the loan. It is supposed that a combina-tion bid will be made for the whole. Several deposits have been made calling from \$500,000 to \$1,-

500,000 cach." The balance in the New York Sub-treasury, on Saturday, was \$4,857,665, an increase of \$474,000 on the close of the previous week. The receipts from customs are increasing.

THE BIDS FOR THE NEW (TEN MILLION) LOAN were duly opened at the Treasury Department at noon to-day. Upwards of six millions were taken by bidders at two-and-a-half per centum and up-

wards premium. There will be about a million-and-a-nalf to divide between the bidders of between two and twoand-a-quarter per centum premium. The two per cent, bidders will get nothing. Offers to near fifty millions are said to have been made by fifty-four

The foreign news by the Europa, to the 8th instant, is important. While cotton had declined, breadstuffs were somewhat improved. The princi-pal feature, however, was of a politico-financial character. The threatening interpretation which was given to the remark of the French Emperor to the Austrian Minister, relative to Italian affairs, had continued to excite distrust and apprehension of an interruption of the peace of Europe. The funds both in England and France, and on the Continent generally, had declined in consequence, but had recovered to some extent at the close.

The workmen were at once driven from the premises, some of them without their coats, and before a supply of water could be obtained the building was consumed. Messrs. Burger & Boyle lose about \$500 in tools and fixtures.-Rish. Dis.

Mr. Morgan had objected, but now stated that he would withdraw his objection if the resolution was so modified as to exclude the consideration of applications of new States or admission.

Mr. Stephens would not so modify his resolution, inasmuch as Oregon is the only Territory ap-plying for admission into the Union as a new State, and he was desirous of bringing the bill for its admission before the House, as soon as possible. He uggested that the gentleman would allow the re-olution to be entertained by the House, and then introduce his proposition as an amendment.

Scenes in the Senate.

[Correspondence of the Baltimore American.] Washington, Jan. 23, 1859.—A scene of unusual excitement occurred in Executive Ses sion of the Senate on Friday evening, when the nomination of Mr. Potter, as Collector of sion of the Orange and Alexandria Railroad, reciting the history of the late contested elec-tion of Senators in that State, and praying espousing Mr. Pugh's opposition to this nomination, assailed in very strong terms, the appointments which had been made in Illinois, enouncing them corrupt and infamous, and charging the President with the direct responsibility. Mr. Fitch replied, and after reiewing the facts, said Mr. Douglas had stated what "he knew to be untrue." The general tone of his remarks was so personal, that

he was interrupted by various calls to order

from Mr. Crittenden and others.

Mr. Douglas retorted defending his allegaions, but admitting that there might be some exceptions among the officials. Still, as general rule he maintained they came within the scope of his criticism. Mr. Davis expressed regret and indignation that such cenes could be witnessed in the Senate, which only proved how much it had fallen from its exalted position. Language had been emploved which would disgrace a bar room. Mr. Shields refered to the scene as mortifying, and exhibiting passion on all sides. Mr. Davis admitted that his resentment at the pectacle had found expression in stronger language than he designed, therefore wished to recall it. Mr. Fitch confessed he owed an apology to the chamber for exceeding the ounds of proper debate, but so far as the Senator from Illinois was concerned, he had not a word to take back or to qualify. After integrity of our country, and recommends the this episode the Senate adjourned without etion upon the nomination, and leaving Mr. Fitch's personalities unanswered. The friends of Mr. Douglas are much exer-

sed and require that he shall take some step to relieve his position, either by a frank admission that he does not recognize "the code" or by an explicit demand for a retraction from Mr. Fitch. After the recent issues with Mr. Slidell and Mr. Jones, this new and more aggravated controversy, they think re-quires some decisive action, which will preent a recurrence of such scenes. In a memorable encounter with Mr. Sumner, Mr. Douglas, after pouring out the vials of his invective, pointedly asked that professed non-combatant, "does he wish us to kick him?" The interrogatory has a different application now, and seems to have returned to plague the in-

#### Destructive Fire in Baltimore.

On Saturday evening last, about six o' lock, one of the most destructive fires that has occurred in our city for a long time took place. The fire was discovered by officer Love, of the middle district, who immediately gave the alarm, and the firemen proceeded to Dugan's wharf, foot of Centre market space, where flames were seen rising from ouilding No. 122, occupied in the lower story by Francis Gwinnelle, block and pump maker. The upper stories were occupied by George and reporting to the House without further debate. Ledden, as a place for storing groceries. The building was entirely consumed, together with the contents. The loss on the stock is supposed to be about \$2,000. The wall of this building fell on the retort of the Maryland Sugar Refinery Company, breaking in the roof, causing a damage to the amount of about \$3,000-loss covered by insurance in various offices. The fire on Saturday evening terminated with the destruction of the above property, but there being some coals remaining, they were fanned into flame by the prevailing wind shortly after 9 o'clock yesterday morning. This being the origin of another alarm, the firemen again proceeded to the same locality, and found that the store No. 126, occupied by E. S. Lambdin and P. M. Wm. T. Sullivan, was on fire, which was en-
